Agenda

1. Welcome from BP and NP
2. Approval of the Agenda - Approved
3. Approval of the minutes of the [66th Steering Board](#) - Approved
4. Action Points Review - still outstanding and will be carried forward
 - a. PO to do comms activity around updates to ETSI standards
 - b. NP to create job description for support/admin role
 - c. NP and RK to update coverage map online and get some topline figures - awaiting go live of FQDN project
 - d. Contact Paul McLane / Nick Langam re article in Radioworld re TG activities.
5. Appointment of a New Director ([SB67/2](#))

Discussion on the two nominees for board members, highlighting what both of them could bring to the RadioDNS Steering Board. The board decided that Andrew Crofoot was best qualified for the current needs of the board.
6. Technical Group Report ([SB67/3](#))

NP reviewed the current working groups and said that there has been a lot of work on app linking and it has moved forward a considerable amount and summarised the current topics stated in SB67/3. Work is still required to iron out a few bugs in the app and then make changes to standards and create implementation guides that are

released at the same time. Discussion on how this would be done and what would be explained.

7. Project Office Report ([SB67/4](#))

NP reviewed the current accounts and the last 2 outstanding membership fees.

NP reviewed past and future events, and the board was asked what they thought of the new stand presence. The response was positive.

RK reviewed the current comms and asked the steering board to help by sharing/reposting/liking on LinkedIn.

NP previewed the plans for [wrongradiostationlogo.com](#).

NP let the board know that they will be asked to authenticate their identity by the UK Companies House, as the law has changed and Directors need to be verified.

RadioDNS has stopped operating HbbTV DNS.

8. No Any Other Business
